System administrator

IBM / Kyndryl 2020–2022

- Managed Windows servers and hybrid Microsoft Azure environments.
- Learned to keep things running, not just get them running.

Fullstack developer

Kyndryl 2022–2024

- Built an internal business lead tracker in a two-person team.
- React, JavaScript and Java.

Eviden / Atos 2024–present

- Building a government application in an international team.
- React, TypeScript, Node.js and NestJS.

Agentic programmer / designer / devops

Bandcash
Independent work, alongside my day job.

- Building and operating a payment splitting app for music bands.
- Go, templ, Datastar, SQLite. From the first screen to deployment, with AI in the workflow.

A few things I've built

Bandcash
Events, expenses and fair payouts for music bands.

Pongrác Szarvas
An artist's portfolio. A place for the work to speak.

Szeremle Tánc
A home on the web for a folk dance group.

Pántlika Zenekar
A website for a folk music band.

Wedding invitation
A small website for a big day.
